

UHU BOUNCING BALL SLIME

Ingredients:

- 1 UHU Glue Pen
- Food colour
- Glowing Powder*
- 5 tsp Contact lens **multipurpose** solution
- 0.5 tsp Baking soda

Tutorial:

1) Fill 1 UHU Glue Pen into a bowl.

2) Add food colour.

3) Add Glowing Powder to have a Glowing Slime.

4) Add 5 tsp of contact lens fluid and 0.5 tsp of baking soda.

5) Mix again thoroughly. In the end, the Slime should detach well from the sides. If not, add more contact lens solution.

6) Knead the Slime and form it to a ball to make it bounce.

Tip: To reuse the Slime later, please pack it airtight.
