

# UHU GLOWING SLIME

## Ingredients:

- 2 UHU Glue Pens
- 1 UHU Glitter Glue
- Food colour
- Glowing Powder\*
- 5 tsp Contact lens **multipurpose** solution
- 1.5 tsp Baking soda

## Tutorial:

- 1) Mix 2 UHU Glue Pens with 1 UHU Glitter Glue and food colour.

- 2) Add Glowing Powder to have a Glowing Slime.

- 3) Add 5 tsp of contact lens fluid.

- 4) Add 1.5 tsp of baking soda.

- 5) Mix again thoroughly. In the end, the Slime should detach well from the sides. If not, add more contact lens solution.

- 6) Let it rest for 10-15 minutes. Afterwards, knead the Slime until it has the desired consistency.

Tip: To reuse the Slime later, please pack it airtight.
